To Whom It May Concern

I am writing this letter on behalf of Mr. Jay Naresh Dhanwant who worked with our company on a project as an independent contractor for OpenLearning in the field of Python Scripting, automation and machine learning and computer vision. He demonstrated superb communication and excellent technical expertise in his consultant field. During his tenure, he was always quick to come up with creative ideas. He will make a great team member for any team he wishes to join. I highly recommend him as an asset in the field.

Sincerely,
Jason
