

FLATFOLDER

www.flatfolder.com

To Whom it may concern,

This is to certify that Mr. Jay Naresh Dhanwant, 3rd year IDD student completed his 3-month long internship program with Flatfolder organization starting from 1st of May, 2020 to 20th July, 2020. In his position as “Data Scientist”, Jay worked on a range of different key new services utilizing machine learning and data management techniques including random forest, deep neural networks and natural language processing.

Jay was the main responsible of developing three analytics services to Flatfolder platform

- 1. Apartments’ historical and current rental prices predictions*
- 2. Apartments’ historical and current selling prices predictions*
- 3. Apartments’ previous and upcoming renovations predictions*

In addition to these three tasks, Jay was heavily influencing and giving inputs to possible future services inside of Flatfolder platform.

Jay has exceptional skills in the machine learning domain. Furthermore, he is having excellent communication, critical thinking, work ethic and teamwork skills

He would be an asset to any employer and I wholeheartedly recommend him for any future endeavour he chooses to pursue.
